BRIEF ABSTRACT OF LETTER.

Represents that the provision on account of the 2 copyists working in the Archaeological Deptt has been omitted from the Oriental Library Budget and requests that they may be borne on the establishment of the Oriental Library as before.

NOTES AND ORDERS.

The Director states that these 2 copyists were borne on the Estt of the Oriental Library, but were working in the Archaeological Deptt for more than 25 years. The suspension of the item will cause considerable inconvenience to the

15 On the staff of the Oriental Library previous to the reorganisation of 10.11.17 there were two places of copyists, both filled; and the two men were on duty in the Archaeological office according to an order of 1892. staff ordered ~~last~~ 6th November 1917 provision was made for no extra hands for copying work, there being only two copyists in the new scale against two in the old. In the proposition 3H however it was not made clear that the two copyists shall work under the old scale in the Archaeological office. These places therefore seem to have been taken as vacant by the University — to which by the Reorganisation the Library was transferred for management — and the two places have since been filled up by the University.

17 This filling up is the result of a mistake, presumably in the Registrar's office. But as the two new men have already been employed it is best not to disturb this arrangement.

18 The Director of Archaeology proposes that the two men till now borne on the Oriental Library Staff working in his office may now be continued on his department if their salary cannot be debited to the Oriental Library. Others having been employed for the two places in the Oriental Library this is the best arrangement. Orders may therefore issue if agreed disposing the retention of these two copyists on the

48) The Dir. Archaeology says that three two copyists are required for work as he has many manuscripts still to be copied. They may therefore be made permanent in the dept. This will result in creating four appointments of copyists — two in the Oriental Lib.y and two in the Arch. office — where there were two before the reorg.n of the O. Lib.y but it cannot be keeped. If it is possible the O.L. may dispense with the two men they have recently employed thus setting right an error that crept in at the time of reorganisation.

49) If these copyists in the Arch. office are made permanent in the Arch. dept provision for their pay will have to be made in next year's budget. Their service will also qualify for pension in that case.

Of the provision on their account transferred from the O.L. budget to the Arch budget the case would have been simple. Apparently no copyist is wanted in the Oriental Library and two were employed because it was thought that there was provision for them & the places were vacant. Of these two copyists now come to the Arch Dept, unless the two already working there can be retired, there will be four men where two were enough before and provision for the two already there will still have to be made. Perhaps the Director Arch may be asked with reference to the wish of the Education Dept whether the two men now in his Dept can be retired & when / the two men in the Oriental Library join / or only in his Office.

85 The re-organisation of the Oriental Library did not take into account proceeded upon ignorance of the arrangement by which 2 copyists borne on the establishment of the Oriental Library were working in the Archaeological Department. Provision was made for 2 copyists in the re-organisation to supersede the system of copying by job-work in force in the Library till then and not to provide places for the copyists working in the Archaeological Department.

It is also explained by the Registrar that the two new copyists engaged by the University in the posts (created as it were during the re-organisation) are employed in copying manuscripts for the Press and it is absolutely necessary to retain them permanently. For the present the posts may be continued as it is stated that this is better than [illegible]

86 The question of abolishing their posts or transferring them to the Archaeological Department may perhaps be given up. The former course would hamper the work of the Library while the latter is unnecessary as the Archaeological Department wants only the two copyists already working in that Department.

87 The two copyists of the Archaeological Department who have been left without permanent posts have to be provided for in the Archaeological Department. If it is necessary to avoid a loss or break in service to them they may be allowed a lien on the posts provided in the establishment of the Oriental Library till they are absorbed in the Archaeological Department the two new copyists of the Oriental Library being considered temporary till the permanent copyists are absorbed in permanent posts in the Archaeological Department.

88 The University Registrar's letter of 7th May 1919* was apparently written under a misapprehension. If the services of the 2 additional copyists at the Oriental Library are absolutely necessary, the proposal at (A)? in the E & A. Secretary's note will not solve the difficulty. For the Director of Archaeological Researches wants 2 copyists for his staff permanently and separate provision to be made for the 2 permanent men working in his Department. And in the current year's budget the required provision does exist in the Archaeological budget.

Sir,

I have the honour to forward herewith copy of a letter No.1484 dated 19th August 1918 received from the Registrar,Mysore University, with regard to the two copyists that are borne on the establishment of the Government Oriental Library, Mysore, and are working in this office, and copies of letters 49 and 50 dated - 26th August 1918 addressed by me to the Registrar and the Inspector-General of Education.

In this connection I have to state that the two copyists have been working in this office as permanent hands for more than a quarter of a century, and as such, the omission of the provision for them in the University budget without any reference to this office in the matter is calculated to cause considerable inconvenience to the copyists without any fault on their part. The claims of these old hands justly deserved the very first consideration. Most of the important manuscripts now in the Oriental Library have been prepared and sent from this office.

The omission of the names of these copyists in the list of the permanent staff of the Oriental Library sent by the

Inspector-General of Education to the University is evidently due to an oversight. In these circumstances, I request that Government may be pleased to do justice to these long standing hands, in preference to the new hands that may have been recently appointed by the University, by directing that provision be made for them in the budget as here-to-fore.

I have the honour to be,

Sir,

With reference to your letter No.1484 dated 19th August 1918, I have the honour to State that the two copyists working in my office are permanent hands borne on the establishment of the Oriental Library for more than a quarter of a century, and as such the omission of the provision for them in the budget without any reference to this office in the matter cannot but cause considerable inconvenience to them without any fault on their part. It is not known why their names were not included in the list of the permanent staff of the Oriental Library by the Inspector-General of Education. A reference will, however, be made to him and also to the Government in the matter. In the meantime I may be permitted to state that in justice to these old hands their claims deserved the first consideration. Both of them are good Sanskrit scholars; and one of them has also passed the Kannada Pandits' - Examination. Most of the important manuscripts now in the Oriental Library have been prepared and sent from this office.

In these circumstances I request you to see that justice is done to these copyists by making provision for them in the - budget as heretofore.

Sir,

In continuation of my letter No.64 dated 21st September 1918, I have the honour to forward herewith copy of a letter No.2421 dated 26th September 1918 received from the Registrar, Mysore University, in connection with the copyists.

In case it is impossible for the University to reconsider the arrangements recently made in the Oriental Library in total ignorance of these permanent copyists who have all along been borne on the establishment of the Oriental Library, I request that Government may be pleased to make provision for them in the Archaeological office alone. It may be stated here that the interest of this Department in manuscripts bearing on Sanskrit and especially Kannada literature began even before the Oriental Library came into existance, and it has continued up-to-date with great benefit both to the Oriental Library and to the learned world. There are also several rare manuscripts, received on loan from private individuals, yet to be copied in the office.

I therefore request that Government may be pleased

to include these copyists in the permanent staff of the Department.

No reply has yet been received from the Inspector General of Education who seems to have made a mistake in leaving out the names of these permanent hands in the list supplied by him to the University.

Sir,

In reply to your letter No.G.7134/G.M.87-18-5 dated 9th October 1918 enquiring when the two copyists who were borne on the establishment of the Oriental Library were posted for - work in the Archaeological Department, I have the honour to state that the entertainment of two copyists in the Archaeological - Department for work in connection with a Sanskrit and Kannada - Library was sanctioned so far back as 1887, and that after the formation in 1891 of the Oriental Library it was ordered in 1892 that the pay of these copyists should be shown, for budget purposes, under "Oriental Library" subordinate to Head "Education Department".

In this connection I would invite your kind attention to the following Government Orders.-

GOVERNMENT ORDER No. 5089/506 dated 14th December 1887
GOVERNMENT ORDER No. 1150/53 dated 2nd March 1892.
GOVERNMENT ORDER No. 14107-9/1534 dated 7th March 1892.

It will thus be seen that the copyists have been working in the Department for nearly 31 years: 4 years borne on the establishment

establishment of the Archaeological Department, and 27 years borne on the establishment of the Oriental Library, i.e., ever since this institution came into existence.

Sir,

With reference to your letter No. G.11452/G.M.87-18-10 dated 13th October 1918, I have the honour to state that the pay of the copyists is drawn by bills debited to Oriental Library, a statement showing the actual amount spent on account of the pay of the copyists being sent on requsition to the - Inspector General of Education every year for adjustment. This procedure existed from the beginning and has been continued - till now.

It was only in August 1918 that I came to know from the Registrar's letter No.1484 dated 19th August 1918 that the usual provision for the two copyists was omitted in the University Budget for 1918-19 as their names were not included in the list of the permanent staff of Oriental Library sent to the - Registrar by the Inspector General of Education. Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
B A N G A L O R E.

Sir,

With reference to para 2 of Government Order No.22890 2/G.M. 87-18-17 dated 9th April 1919, calling for a report as to the necessity for the continuance of the services of the Copyists working in my Department, I have the honour to state that the interest of this department in manuscripts bearing on Sanskrit and especially on Kannada Literature began even before the Oriental Library came into existence, and it has continued up-to-date with great benefit both to the Oriental Library and to the learned world. Nearly 150 volumes of important manuscripts containing about 300 works have been sent to the Oriental Library. Almost all the valuable Kannada manuscripts now in the Oriental Library have been prepared and sent from this office. There are also several rare manuscripts received on loan from private individuals, yet to be copied in the office. The section on Manuscripts in my Annual Archaeological Reports has attracted the notice of several acholars both in India and elsewhere.

In these circumstances I request that Government may

be

be pleased to include the copyists in the permanent staff of the Department.

I have the honour to be,

Sir,

Your most obedient servant,

R. Narasimhachar

Director of
Archl: Researches in Mysore.

Sir,

With reference to Government Order No. 11757-9/Edn.-148-18-39 dated 31st May 1919 directing that the services of the copyists now working in the Oriental Library, Mysore, be transferred to the Archaeological Department, I have the honor to invite reference to my letters Nos. 64 of 21st September 18, 70 of 28th September 1918, 27 Camp Mysore dated 14th October - 1918 and 215 of 22nd April 1919 and to state that the transfe: of the services of the new copyists now working in the Oriental Library to the Archaeological Department does not in any way help the permanent copyists on Rs. 35/- working in this Department. Provision has first to be made for these before transferring those of the Oriental Library to take their place. -

I have the honour to be,

Sir,

Your most obedient servant,

Dated 11-9-1919.

Dear Sir,

I am desired to state that provision seems to have been made for 2 copyists on Rs. 30 during the reorganisation of the Oriental Library in lieu of the 2 places of copyists on Rs. 35/- which existed before the reorganisation Vide: Statement appended to G.O. No. dated

These copyists on Rs. 35/- though borne on the establishment of the Oriental Library were all along working in the Archaeological Department. In filling up the places of copyists on Rs. 30/- after the reorganisation 2 new hands seem to have been entertained in the Oriental Library.

I am directed to enquire how the 2 new copyists are engaged and if it is considered necessary to continue the services of these 2 new employees seeing that the places provided in the reorganisation corresponded to the copyists working in the Archaeological Department and not to copyists actually working in the Library before the reorganisation.

The favour of a very early reply is requested.

Yours sincerely,

10/9.

Dated Mysore, 29th September 1919

Dear Mr. Rama Iyer,

With reference to your D.O. No. 2509/Edn. dated the 11th instant, I am directed to state that the copyists in question are engaged in copying manuscripts etc., and preparing them for the press. This work was being done in the Library by copyists who were being paid by the job, irrespective of the employment of the two men referred to in the Archaeological Department. It was considered a more satisfactory arrangement to employ permanent men for the work. It is therefore absolutely necessary that the services of these employees, like those of Pandits etc., should be retained permanently.

Yours Sincerely,

To

T.G. Rama Iyer, Esq., B.A.,
Assistant Secretary to Government,
Bangalore.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Read:-

G.O. Camp No.1150-53 dated 2nd March 1892, sanctioning, amongst other matters, the entertainment of 2 copyists for copying old Kannada manuscripts in the office of the Director of Archaeological Researches in Mysore, their pay being met from the budget of the Oriental Library at Mysore.

2. G.O. No.4566-8/Edn 69-14-14 dated 10th November 1917, reorganising the establishment of the Oriental Library, Mysore, and providing for 2 copyists in the revised scale as in the old scale.

3. Correspondence ending with letter No. 120 dated 20th December 1918, from the Director of Archaeological Researches in Mysore reporting that, as in the order of the reorganisation of the Oriental Library read above, it had not been made clear that the 2 copyists who were shown on the establishment of the Oriental Library Budget were persons working in the Archaeological Department, the University had apparently, due to oversight, not made provision for the pay of these men in the budget of the Oriental Library, and that the pay of the two men working in his office could therefore not be paid from that budget and proposing that if the pay of these two men who had held the two places for several years could not be met from that Budget they may be attached to the Archaeological Department.

4. Correspondence ending with letter No. 4564 dated 20th December 1918 from the Registrar, Mysore University, stating that the case of these 2 copyists in the Archaeological Department borne on the Oriental Library establishment was apparently not considered in connection with the allocation under the order of reorganisation of the Oriental Library and that two new men had been employed against the two places of copyists in the establishment of the Oriental Library.

5. G.O. No. 11757-9/Edn 148-18 dated 31st May 1919, directing that the two copyists newly employed in the Oriental Library may, along with the provision for their pay in the University budget, be transferred to the Archaeological Department.

6. Letter No. 10732 dated 10th June 1919 from the Registrar, Mysore University, stating that there is no separate provision for the two copyists, which can be transferred to the Archaeological Department as directed in the above order.

7. Further correspondence ending with communication No.3289 dated 29th September 1919 from the Registrar, Mysore University, stating that the two copyists newly employed are attending to work that was so far being got done under the job system and that there is need for the services of these two men in the Oriental Library.

Order No. L 150 26-8/ G.M. 8 T-18-31

Dated, Bangalore the 5/12/~~December 1918~~

Before the reorganisation of the Ori[illegible]

Library there were 2 copyists borne on that establishment, but ~~working~~ working in the Archaeological Department. After the reorganisation had been brought into effect the University had without reference to the above arrangement, employed two new hands in the Oriental Library. in place of the 2 copyists ~~working~~ provided in the reorganisation. There are thus four copyists actually employed against the two places provided on the establishment of the Oriental Library, two ~~of them~~ working in the Archaeological Department, and two in the Oriental Library.

2. The Director of Archaeological Researches states that there is need in his Department for the two copyists now working in it and that they may be continued in his department and provision for their pay made in the budget of his department. Government approve of the proposal that these two men may be borne on the establishment of the Archaeolocial Dept. Provision for their pay will be made in the budget of that department hereafter.

3. The Director is requested to send for the information of Govt. a list of the manuscripts so far copied by them copyists working in his department and of those on hand yet to be copied.

4. The two copyists newly entertained in the Oriental Library and directed to be transferred to the Archl Dept. in G.O. No.11757-91/Edn 148-18 dated the 31st May 1919 may continue in the Oriental Library, pending further orders as to

thewpermanent retention.
